DETAILED ACTION

The amendment filed on November 24, 2004 has been entered. Claims 3 and 5 are cancelled, and claims 1-2, 4 and 6-23 are pending.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Miller et al.

Allowable Subject Matter

Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 4 and 6-23 are allowed.

Response to Arguments

The rejections in view of Eisenhauer, Huyette, Newman (1,821,765 and 2,029,890), Burgess, Treanor and Chu et al are withdrawn in view of the amendment.

Applicant is reminded of his duty to disclose under 37 CFR § 1.56, which states in part:

Duty to disclose information material to patentability.

(a) A patent by its very nature is affected with a public interest. *The public interest is best served, and the most effective patent examination occurs when, at the time an application is being examined, the Office is aware of and evaluates the teachings of all information material to patentability.* Each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in this section. The duty to disclose information exists with respect to each pending claim until the claim is cancelled or withdrawn from consideration, or the application becomes abandoned.

Art Unit: 3753

The Examiner wonders whether other pertinent prior art exists, based upon applicant's U.S. Patent No. 3,586,101. Although, an Information Disclosure Statement was filed, the references submitted were less pertinent than applicant's prior patent. The Examiner would like confirmation or acknowledgement of this request.
